

## Winter Parking Bans

The Winter Parking Ban is put in place to improve and expedite the process of removing snow from Exeter's streets. To improve the efficiency of the removal effort some snow removal is done at night. This parking ban prohibits any car to be in Town right of way between 12 a.m. to 6 a.m.

The Ban is in effect between December 1st and March 15th every year. The Town has the right to tow or ticket any violators.

The Municipal Parking Lot on Water Street has several marked spaces that may be used for overnight parking. Also, there are (8) eight parking spaces available on Pleasant Street that can be permitted for overnight parking between December 1 and March 15. These spaces are permitted on a first come first serve basis and requests can be made through the Town Manager's office beginning on November 1.

### Snow Emergency Parking Bans

Snow emergency Parking Bans can be instituted by the Public Works Director with the Concurrence of the Chief of Police in the event of a predicted or on-going severe snowstorm (Town ordinance #102.6 Snow Emergency).
